Hi Ray –

The letter to DLNR is appropriate in that it sets forth the process that has been followed to comply with Section 106. As the entity that has been delegated the FTA responsibility to comply with Section 106 for the Honolulu High-Capacity Transit Corridor Project, it is important that the record show that the requirements of Section 106 have been complied with. I would think that as the federal agency that is responsible for complying with Section 106, FTA would be most concerned with following the established process.

Toru,

This letter is peculiar and is another example of throwing out recriminations toward the organizations that you are seeking cooperation from. This letter should not have been sent in this manner. Also, we are concerned that this letter could give the SHPO an incorrect impression about FTA's position, which has been based on consultations with SHPO, US Navy, etc., to have the Makalapa district represented as a single district. Unfortunately, we have to correct the possibility of a mistaken impression.

I have not heard anyone but project staff raising questions about process. Project staff has wanted to stick with the process despite the concern that the outcome may be incorrect. The issue for the Navy, SHPO and ACHP is to be sure we have a correct outcome.

Ted,
With Faith mostly out this week, I wanted to send you an early CC: on this. I'm going to give you a ring to give you a status update. The City has had several conversations with the Navy and touched base with the SHPD on this issue.
